Fuel For Britishers Who Are Rampant For Hostilities.

TWO INCIDENTS OF MOMENT.

Latest Reports of Boer Activity Say Transvaal Forces Are Mobilizing at Zandsprint to Attack Natal.

London, Sept. 21.—The speech of Sir William Vernon Harcourt, the former Liberal leader, to his constituents at New Trodegar, and the message of the Cape Town Afrikander members of parliament to President Kruger have proved red rags to the "war-at-anyprice" party.

The cape papers declare the action of the members of parliament amounts almost to treason and the same terms are applied to Sir William Vernon Harcourt's remarks by the English anti-Boer papers.

Those who claim the situation has not yet passed the Ruhicon of pacific negotiations, see in President Kruger's answer to the Afrikanders a genuine desire to avoid hostilities. The repori that he has personally petitioned Queen Victoria to avert hostilities certainly does not hear out the alarmist reports of English correspondents in South Africa that President Kruger determined long since upon war. Nevertheless preparations for that eventually continue energetically on hoth sides. The Boers are not lagging and British troops are reaching Kimberiey and Ladysmith, the onward march of the latter heing marked hy enthusias. tic ovations from the scared inhabitants and hordes hurrying southward

The latest report of Boer activity emanates from New Castie, Natal, saying the Transvaal forces are encamped at Zandsprint and intend to raid Natai immediately after they understand that Mr. Chamberlain's reply is not satisfactory.

The British army nursing service sails from Southampton and Major General French sails Saturday. He goes to Durban, Natal, to command the cavalry brigade.

The foregoing includes all the actual developments, hut they hely little to solve the universal question, "Wili company, Oherlin, capital stock \$15,there be war?" The answer of President Steyn of the Orange Free State to Sir Aifred Milner, the British high Cleveland, amendment changing name platform committee is George Fred commissioner of South Africa, is not to the Rolled Switch Rail company. regarded as a satisfactory expianation of the free state's position and hy no means dissipates the increased seriousness with which the situation is regarded. Since the first it has been reported that the free state would aggressively assist the Transvaai.

Vanity Fair, frequently well informed regarding political secrets, emphatically reiterates the assertion that there will be no war. It snys:

"President Kruger is an old man, hut he is no dotard. He would like to get his own way, hut not at the cost of defeat. Climb down, he will. We maintain the belief that there will he no war."

Vanity Fair takes the view, which is shared hy several weeklies, that the alarmist daily papers created a fictitious crisis.

While appreciating the concessions already made in the interests of peace, we heg to urge the expediency of doing the utmost, short of sacrificing Independence, to avert the horrors of war. While ngreeing that the joint inquiry proposed by Mr. Chamberlain can not be asked as a matter of right, we helieve such a commission wlii provide a way out of the difficuities which are fast approaching a crisis with results which might prove fatal not only to the civil and free state brethren, but ning company, was destroyed by fire. also to the Afrikander party of Cape The fire originated from an expiosion Colody."

SHORT ON WHEAT.

Firm of Barrett, Farmin and Company Unable to Meet Contracts. Chicago, Sept. 21.—The firm of Bartett, Farnum and company, a wealthy and influential board of trade concern here, failed.

The firm had sold heavily short during the past three days, plunging in the expectation that the New York stock panic would result in a break in wheat. The shortage of the firm is variously estimated at from 4,000,000 to 5,000,000 hushels of the December

It was noticed Wednesday that Barrett, Farnum and company were heavy buyers, the heaviest in the iocai pit, taking in about a million in an effort to recover. The price held firm with a streng... that puzzied them in view of the hearish tone of news.

Again in the morning brokers representing the firm were husy on the curb and in the pit, hut all efforts proved of no avail.

The crash came at 11 a. m. when the deals went into the clearing house.

Barrett, Farnum and company, in a hastily scrawled notice, announced the inability of the firm to fulfill its contracts. Then the scene in the pit took on the tone of the panic. The December option had opened at 71%@ 71% and the market siid quietly off under sales against calls to 711/2. At this figure Barrett, Farnum and company renewed their efforts to cover. The price jumped fractionally to 73. Then came the announcement of the abrogation of the firm's contracts and the scramble to get out from under. December declined to 71% cents without even an effort at recovery.

Mennwhile Messrs. Barrett, Farnum and company had closed their doors and put seals on their lips; apparently. James Walker, manager of the concern, when seen, declared that he was as much surprised as any one at the suspension and gave as his opinion that the firm would be nhle to resume husiness, inasmuch as the subsiding of the panic had left wheat fluctuating narrowly.

### CUBAN BONDS MUDDLE

Spain Has Refused to Meet Interest on the Obligations.

### ARE RENDERED WORTHLESS.

State Department at Washington Explains the Action of Paris Commission Regarding Titis Mooted Matter.

Washington, Sept. 21.—The decision by the Spanish cabinet that the interest on the Cuban bonds must be paid by the Cuban government is a virtual announcement that Spain will not pay the interest and that the bonds are valueless. Involved in this announcement is the condition that there may be an attempt to entangle congress in a discussion of the responsibility of the United States government for the interest during the American occupation of the island.

The action of the Spanish cabinet was referred to the state department from which the following authoritative statement was obtained:

"The United States commissioners at Paris never at any time or in any degree agreed that the United States should become responsible for Spain's Cuban debt. There never was an understanding that another party should he responsible for that debt than Spain herseif. The reason the United States did not assume the debt, or any part of it, was that the deht was incurred almost wholly hy Spain to crush the several insurrections. The United States might have assumed to guarantee this debt of the funds named had been expended in internal improvements in Cuha. This government, as is well known, consented to pay to Spain \$20,000,000 in the case of the Philippine islands, solely on the ground that approximately that amount had heen expended hy Spain in improvements in the islands.

"The United States, therefore, has assumed no ohligations for and has no interest whatever in the declarations of the Spanish enhinet on the dehts of ther delayed. Captain Baineson of the Spain or how they shail he paid. The quartermaster's department told the present declaration looks like n repucommittee representing the strikers diation of the deht, principal and lnterest."

The state department argues that when Spain relinquishes her soverland of dehts contracted to keep her in government on vessels chartered. The hondage. This condition is confirmed strikers told Captain Baineson that in the notes which passed between the they would not do a stroke of work on two disputing commissions when the treaty was under discussion in Paris.

WEATHER FORECAST .- Fair Friday; warmer in extreme western portion; Surday fair; variable winds.

"SIR THOMAS S. TANCRED has returned from Alaska, and we may expect to hear something definite on the situation," says the Dover Messenger, speaking of the "Black Diamond." Br'er Curran, are you still working this "fake" on your readers?-Maysville BULLETIN.

The good old BULLETIN is not only against the railroads we already have, but seems to be against the Messinger bringing in any more. As Br'er Goebel threatens to drive the L. and N. ont of business it may be real convenient to have the Black Diamond come in.-Carlisle Mercury.

There's where you are wrong, Br'er Keller. In fact you seem to be all wrong of late. The files of the Bulletin show that we have always done as much as any other paper in Kentucky, and a good deal more than many, to encourage railroad building. But we don't believe in any railroad trying to run the State government; nor do we believe in any railroad charging unjustor extortionate rates. We haven't any evidence that any railroad is attempting or doing anything of the kind, but we do know there is a lot of talk to that effect.

As for our remark above, the Messenger has been "kidding" the BULLETIN of late about Maysville's prospective railroads, and we simply got back at Br'er Curran in like spirit, and your attempt, Br'er Keller, to twist and distort the matter and make a little political capital out of it surprises "the good old Bulletis" considerably; it sounds too much like it came from a Republican.

You need not worry over Br'er Goebel; he believes in the railroads enjoying all the rights and privileges they are entitled to, but, at the same time, he believes in protecting the interests of the people.

The Hon. P. P. Johnson of Lexin gn may be all right and a clever gentleman but he has never impressed us as deserving any special consideration or favors, and we have had less regard for him than ever since his deliberate attempt, while Chairman of the Executive Committee, to organize the State convention at Louisville in the interest of one of the candidates before that convention. His efforts were open and notorious, and if there were any high-handed proceedings in that convention, Mr. Johnson inaugurated them himself. Of all men in the vitations to the marriage of their daugh- tion of the Rlpley Daily Record. State he has less grounds for bolting than | ter, T. Hurst, to Mr. Sam R. Minnich, | any one we know of. And yet he is posing as Mr. Brown's running mate on the bolters' ticket.

The Louisville Dispatch is now denouncing the Goebel election law as infamous, but immediately upon the passage of the law the Dispatch boasted of the influence it had exerted in behalf of the law and intimated that to its influence, principally, was due its passage Schwartz and her brother a over the Governor's veto. If what the ters had enjoyed a rennion. Dispatch claimed for the law was true then it is true now, and every time it attacks the law it attacks what less than two years ago it was anxious to make the Democrats of Kentucky believe was its offspring.-Exchange.

The change in the Dispatch's views on this question is easily explained. It has years old and this is his second marceased to be a Democratic paper, having riage. The bride is a sister of Mrs. John sold out to the corporations, and is now edited largely by a lot of Republicans.

WE venture the assertion that ninetenths of those Democrats who have been suddenly seized with a desire to "purify" the party are men who rarely, if ever, go near a county convention. The proper place for them to begin the that state on Saturday of this week work of purification is in the precinct by Governor Roosevelt of New York, meetings or the county conventions. and Judge Nash, the Republican candi-State conventions will be all right when late for governor. you purify the county conventions, and the way to purify the latter is for the be t people to turn out and con tool then

### Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it Callon J. J. Wood & Son, druggists, and get a trial bottle free. Regular size 50 cents and \$1. Every bottle guaranteed, or price refunded.

No making of bargains by sacrificing quality! No ten-year filled Cases warranted for twenty-five years! No single plated Spoons warranted quadruple plate! A first-class fine of entirely new goods sold at the least possible price.

### BLACK DRESS GOODS.

Thank the unseasonable weather of last week for another chance at these handsome Jacquards. The drop in the thermometer suggests woolen warmth, so our offering comes when needed. The fabric is a rich, full black, unglossed with conventional figures in silky effects. It is strictly all wool, full forty inches wide and unusually retails at 65c. a yard, never even in the cheapest merchandizing at less than 50c. Friday it leaves counters for 29c.

### OPENING DAY

Of the Ohio Valley Carnival and was warmly contested, there being Horse Show.

The Usual First-Day Crowd Present-List of Premiums Awarded-The Race. -Other Amusements.

It's a difficult matter to get the people of Maysville and Mason County to turn out ou the opening day of a fair. It requires something extra in the way of an attraction to induce them to attend.

The carnival and horse show at the fair grounds began Thursday, with about the usual attentiance seen on first days.

The farmers are very busy sowing wheat, cutting corn and housing tobacco, and this is all calculated to cut down the attendance.

A good attendance is anticipated today, however, and the big crowd will be on hand to-morrow.

Some very fancy horses contested for the premiums yesterday, and the mule rings also brought out some fine ones. The premiums were awarded as follows: Best saddle stallion under four years,

\$15; Alexander & Bro., Maysville. Best harness mare under four years, \$15; C. B. Stroud, Minerva.

Saddle gelding, four years and over, \$15; Charles Biggers, Maysville.

Best pair of mules, \$10; E. R. Davis, Helena Station.

Women Who Wear Well.

It is astonishing how great a change a few years of married life will make in the appearanco and disposition of many women. The freshness, the charm, the hrilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a falut ceho of the charming maiden. There are wo reasons for this change, ignorance and negleet. Few young women appreciate the shock to the system through the change which comes with marriage. Many neglect to deal with the unpleasant drains which are often consequent on marriage and motherhood, not understanding that this secret drain is robbing the cheek of surcly as the general health suffers when there is deraugement of the health of the delicate womanly organs, so surely whou these organs are established in health the face and form at once witness to the fact in renewed comeliness. Haif a million women aud more have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well.

### BIG POTATO CROP.

Low Prices For the Popular Vegetable Are Assured.

1St. Louis Giobe-Democrat.] Travelers coming into St. Louis from the East report that they noticed great heaps of potatoes at nearly all the stations through Western Illinois, evidently awaiting shipment. It is a little early to brag about the Northern crop, as it may be affected by early frosts, tbut from present indications the yield will be larger than usual and the price per bushel during the coming winter will be less than for many years.

There are three 'commission houses in St. Louis which make a specialty of buying and selling potatoes in great quantities. A member of one of these firms was very enthusiastic over the prospects for a big potato crop when seen yester-

"Prospects are for low prices for potatoes this winter. At present they are selling for an average of 40c. a bushel, and I see no indications of an increase in price. There have been seasons when potatoes sold for several times that amount. The price is regulated by the crop, as a matter of course, and when eration by the middle of November. It we have to send for our supply to Colorado, and even California and Oregon, as known glass man of this city, will superwe have on several occasions, the value intend the plant. of potatoes is bound to jump.

"Colorado grows the biggest and finest potatoes of any State. They are cultivated there under the irrigation system and seem to thrive particularly well. The Colorado potato is large, white and mealy and makes excellent eating. It also commands a higher price than any other potato grown."
